To Whom It May Concern:

My name is Shirley R. Spurgin and I am a Doctor of Chiropractic licensed in the State of California. I have been practicing since July of 1984.

Over the last two years I have reviewed NMT: The Feinberg Technique, teaching the protocols of neuromodulation therapy. These teachings effectively teach a useful method of neuromodulation therapy as disclosed. I have personally utilized the disclosed therapy for correction and relief of symptoms. Two cases have been particularly responsive in my NMT utilization.

One is a gentleman of 94 years old with chronic left Sacroiliac pain, left deep gluteal pain, and a 'giving out' of the left leg and thigh when going up stairs. Various Pathways were performed and in 4 months he was "100% better".

Another case is that of a 75-year-old gentleman with chronic bilateral shoulder pain of a 10-year duration. Within 6 weeks both shoulders were so fluid and manageable that he was washing windows in his home. The patient continues to be pain free after 14 months.

I respectfully submit these statements made herein and declare that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
